

**Giving Them Our Best: National 4-H Learning Priorities  
NAE4-HA Annual Meeting  
Pre-conference October 24 - 9 AM to 4 PM**

This pre-conference will serve to introduce the content of the National 4-H Learning Priorities to state professional development liaisons, NAE4-HA members, and others involved in professional development efforts. Members of the National Learning Priorities content teams will introduce a variety of resources available to 4-H field staff regardless of role, location or experience. Get a sample of the Evaluation Learning Circles, Organizational Systems Webinars, Essential Elements Training modules, Rubrics for Volunteer Development, and expanded Syllabi for Expanding Outreach. These National 4-H Learning Priorities were identified to focus on professional development for 4-H staff. The goal was to develop learning opportunities for 4-H professionals that will ultimately enhance program quality, which leads to positive outcomes for young people and improves the long term success of 4-H. Priorities are grounded in the 4-H PRKC 2004, and reflect the needs expressed from the field, the National 4-H Strategic Plan, and are closely aligned with the goals and ongoing efforts of eXtension. .
